EXAMINER'S AMENDMENT

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or disclose a mask assembly for a color cathode ray tube comprising, in combination with the remaining features of the claims, openings in the effective screen area include slits and columns of slots both extending in the vertical screen direction, the slots extending for a shorter distance than the slits in the vertical screen direction, the slits alternating with the columns of slots in the horizontal screen direction; and the thin metal plate comprises metal strips that separate the slits from the columns of slots, thereby bounding the columns of slots, a plurality of real bridges joining the pair of metal strips bounding each column of slots so as to define boundaries between the slots in the column of slots, and a plurality of dummy bridges projecting from the metal strips into each of the slits without joining the metal strips.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Vu whose telephone number is (571) 272-1831. The examiner can normally be reached on M-F 8am-430pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
